Naples Grande Beach Resort refreshes waterfront villas

The bedroom in one of the refreshed villas at the Naples Grande Beach Resort.

The 474-room **Naples Grande Beach Resort** took the fall and winter months after Hurricane Irma to refresh the hotel with a multimillion-dollar renovation, including improvements to 50 one-bedroom villas.

The private villas include new furnishings, lighting design and custom art pieces by local artist Casey Matthews. Each villa is 700 square feet and features private outdoor patios, two terraces and a separate living area. Additional guests can be accommodated by the queen-size sleeper sectional sofa in the living space.

Additional renovations to the property include changes to the public spaces, guestrooms, spa and restaurant. A lobby lounge, Mantra, featuring Japanese and pan-Asian specialties, has been added, and the signature restaurant, the Catch of the Pelican, has a new executive chef and a refreshed menu.
